Advancing Worldwide Chemistry

# A glossary of concepts and terms in chemometrics

- IUPAC – 2008-02-001
- Professor D Brynn Hibbert, University of New South Wales, Australia
- Prof. Pentti Minkkinen, Lappeenranta University of Technology, Finland
- Dr N.M. (Klaas) Faber, Chemometry Consultancy, The Netherlands
- Dr Barry M. Wise, Eigenvector Research, Inc, USA

## Aims

- Overall: To provide a glossary of IUPAC-recommended concepts and terms for use by the chemometrics community.
- This project: To establish the scope of the problem, and to set up the consultation process (via a wiki) of draft terms.

## Look out for ...

- Announcements
  - on ICS-L e-mail list
  - journal editorials
- Wiki – style web site (Eigenvector Research)
  - this is where the terms will be posted
  - changes and comments will be allowed
  - the project team will create a consensus list

## Please ...

- Join in the fun
- Contribute your ideas to the wiki
- All help will be (eventually) acknowledged
